MODERN DENTAL PROTECTION

The **PROFISIL**® family combines modern protection concepts with enhanced patient comfort and is always evolving

INNOVATIVE DIMETHICONE BASE AS THE **FOUNDATION FOR BOTH PRODUCTS**

- Low allergenic potential
- Adheres reliably to the tooth surface
- No prior drying required
- Transparent and virtually invisible after application
- Calcium hydroxyapatite and phosphate help support tooth remineralization*

Protection of sensitive tooth surfaces through mechanical sealing of the dentinal tubules.

Apply. Adheres. Protected.

The right solution for children, teens, adults, and seniors.

No burning sensation, no bitter taste.

Making a good thing even better! Now the choice is yours.

Choose the solution that best meets your patients' needs:

+ 5% SODIUM FLUORIDE**

PROFISIL® PLUS

- Longer-lasting protection, longer-lasting care: Fluoride release for up to 24 hours.
- The right material for every taste:
